

**ASSISTIVE TECHNOLOGY IN NEUROREHABILITATION
Conference & Exhibition**

Friday September 11, 2020

JZ Young Lecture Theatre, Anatomy Building, Gower Street, University College London

The aim of this symposium & exhibition to be held at UCL is to apprise healthcare professionals of the latest advances in applying assistive technologies in neurorehabilitation.

It is increasingly being recognized that assistive technology can play a major role in enhancing recovery and improving outcomes in brain injury and brain disease. Recent years have seen a number of developments and research findings which may guide practitioners who wish to avail themselves of such technologies or recommend them to their clients. This event & exhibition will help to inform high quality, evidence-based practice in this area.

Speakers

Speakers at this event are leaders in the field of assistive technology and rehabilitation, and are (in alphabetical order) – **Jane Bache, Professor Payam Barnaghi, Dr Matthew Jamieson, Professor Nigel John, Dr Narinder Kapur, Professor Alex Leff, Dr Sarah Thomas.**

Programme overleaf.

Limited number of places. Early Bird before July 1, 2020 – £165. After July 1, £195.

This includes refreshments on arrival, morning & afternoon refreshments, and a sandwich lunch
