### Employment History:

#### Nov 2023 – present **NPsych Ltd**

Providing specialist neuropsychological assessments and interventions for mood, behaviour, and cognition to individuals with a range of neurological conditions. Working in inpatient neuropsychological rehabilitation settings for people with acquired brain injuries (including Enable Care and Achieve Together), and in the community, offering psychological assessment, formulation, and treatment to individuals, their families and networks. Staff support, teaching, training and consultation have been an integral part of the role.

#### Nov 2023 – present **Croydon Health Services NHS Trust, Intensive Support Team**

As a Principal Practitioner Psychologist and clinical lead, I have been setting up an enhanced support service for adults with learning disabilities and/or sole diagnosis of autism, at risk of placement breakdown or hospital admission, in the context of transforming care agenda; developing, co-ordinating and ensuring the systematic provision of a psychology/behavioural service to adults with learning disabilities and/or autism, whose behaviours significantly challenge; leading on the multi-disciplinary team formulation and interventions; risk assessment, crisis management and prevention planning; recruitment and management of staff; clinical supervision and consultation; service evaluation and audit;

#### Aug 2020 – Oct 2023 **Croydon Health Services NHS Trust, Community Learning Disability Team**

As a senior clinical psychologist in the Community Learning Disability Team, I was carrying out specialist psychological assessments and interventions with adults with learning disabilities presenting with mental health difficulties, complex behaviours that challenge, and/or dementia; taking a leadership role in relation to the Behaviour Support Service and the challenging behaviour pathway; completing Autism assessments; psychological therapy (CBT, CFT, integrative); providing clinical supervision; consultation and training with care providers, facilitating CAPDID (A Trauma-informed Approach to Caring for People with a Personality Disorder and an Intellectual Disability) training; systemic work; setting up PBS workshops for family carers; staff consultations; evaluating the effectiveness of the service, supervising trainee clinical psychologists on placements; completing audits; teaching and training.

**April 2019 – August 2020      Croydon Health Services NHS Trust, Community Learning Disability Team**

Psychological assessments and formulation-led interventions with individuals with learning disabilities presenting with a range of mental health conditions, including anxiety, depression, trauma, psychosis, as well as their families and carers; using the Positive Behaviour Support framework to inform assessments and interventions for people presenting with behaviours that challenge; carrying out cognitive assessments for people with suspected dementia diagnoses; offering psychological consultation, supervision and training to professionals.

**Jan 2018 – March 2019      Kings College Hospital NHS Trust, Dental Institute**

I was involved in developing a new psychology service in the Dental Institute; offering assessments and psychological therapy (CBT, ACT) to patients of the Dental Institute, presenting with a range of concerns including anxiety and low mood, chronic facial pain, dental phobia, appearance related distress; carrying out suitability assessments for patients undergoing jaw surgery; designing and facilitating groups for patients with persistent jaw pain; developing written resources for the service; supervising assistant psychologists; delivering teaching and training to medical staff.

**March 2014 – Dec 2017      Behaviour and Family Support Team, Central and North West London NHS Foundation Trust**

I worked in a multi-disciplinary team offering assessments and interventions to children and young people with autism and/or learning disability presenting with a range of difficulties, including aggressive behaviour, self-injurious behaviour, problems with feeding, sleeping, following instructions, concerns about mood and social functioning. I facilitated ACT/Mindfulness groups for parents of children with autism and learning disability and offered consultation and training to professional and non-professional groups.

**Dec 2010 – Feb 2013      North East London NHS Foundation Trust, CAMHS LD**

Assessments and brief interventions with parents and young people with autism and/or learning disability presenting with a range of mental health and behavioural difficulties; consultations with social care staff.

**Sept 2010 – Sept 2013      Surrey and Borders Partnership NHS Foundation Trust**

Completion of doctoral training in clinical psychology; worked with a range of client groups across different service settings, including primary care, secondary mental health and inpatient units; Used a range of therapeutic models: CBT, ACT, narrative, systemic therapy, mentalization-based treatment, psychodynamic therapy, psychoanalytic group therapy;

**Dec 2008 – Aug 2010      East London NHS Foundation Trust, Psychology Department**

As an assistant psychologist, I used CBT with clients presenting with depression, severe anxiety, PTSD and hoarding difficulties; facilitated the Hearing Voices Group and the Recovery Group on an inpatient ward as well as a support group for people with hoarding difficulties; I was involved in the NICE Guidelines Implementation Project for Schizophrenia and Bipolar Disorder; developed and maintained systems of data monitoring in relation to the Trust's compliance to NICE Guidelines for Schizophrenia and Bipolar Disorder.

**Dec 2007 – Dec 2008      East London NHS Foundation Trust, John Howard Centre, Forensic Mental Health**

Facilitating therapeutic groups and offering support to clients in the low secure unit; carrying out risk and mental health assessments;
